

Agnostic Atheist: The Study of the Fastest Growing Population in the World Today According to many recent reports and international polls, the number of agnostic atheists has been on the rise. This can be seen as good news or bad news for different people. It is good news for many agnostic atheists because it is a sign that more and more people are realizing what they have known for quite some time now. It is also a sign that their ways of educating the public about agnosticism and atheism are not futile at all. On the other hand, such news would be a bad one for the religious leaders and most of their followers. Many societies still stigmatize agnostic atheists and irreligious people for their way of thinking. The rising numbers of such people could be seen as a threat by the some religious people, and this result to more aggressive attacks that can be heard their sermons and preaches to the public. However, agnostic atheists need not to be concerned by such negative actions because there are more important things to be concerned about. In this e-book, you would have much fuller understanding of the workings of an agnostic atheist. You would also learn about the different types of irreligion that many people believe in. You will also get to know which countries more supportive of the agnostic atheists and other irreligious people. There is also another chapter that is dedicated to some agnostic atheists who made a significant impact to their society. By gaining more knowledge about such things, you would be able to have a broader yet more concentrated understanding of agnostic atheism.
