

Part of a series designed to prepare applicants who are seeking Federal Aviation Administration (FAA) certifications for the full range of material, these guides offer current test questions, answers, detailed explanations, illustrations, and oral and practical study outlines to the FAAs Knowledge Exams for the Airframe, Powerplant, and General tests. The series is designed in a fast-track format for increased comprehension and retention of the studied materials. After taking the practice tests, a Knowledge Test Report form gives only a code for the questions missed, allowing applicants to use Learning Statement codes for efficient studying and to tailor the program for their individual needs.
