

Following in the footsteps of DK's bestselling adult title *Animal*, which sold in excess of 2 million copies, *Animals: A Visual Encyclopedia* reveals the wonders of the animal kingdom to a younger readership. Structured by animal group with separate entries for every notable type of animal, from ants and aardvarks to wasps and wallabies. Fact files provide key information on behavior, distribution, diet, and conservation issues. Action photography reveals wild animals interacting in their native habitats and puts natural behavior in context. Highlights animals most likely to fire the imagination of young minds: the deadliest, the largest, the friendliest, the fastest, and the downright strangest. Supports the Common Core State Standards.
