

Forward by retired NASA astronaut Jay Apt, PhD, veteran of four space shuttle missions. Benjamins Field: Rescue has been awarded a five-star review by the literary site Readers Favorite (readersfavorite.com). The year is 1918 and the world is mired in the Great War. Benjamin Kyner, a poor farmer from rural Pennsylvania who is reeling from a father's worst nightmare, discovers his son's fiancée, Eleanor, has given birth to their disabled child and has been disowned by her parents. Amid the turmoil of war and a world ravaged by the worst epidemic since the Black Plague, Benjamin finds himself crippled by his own self-doubt as he struggles with the overwhelming implications of accepting Eleanor and his disabled grandchild. If he fails, he will lose his last remaining chance at happiness. Fighting for Eleanor are Father James Templeman, who, torn between his humanity and his Church, is struggling with a tragic secret, and Randy Bridgewater, a playboy-turned-fighter pilot, who is sinking into the depths of alcoholism as he fights his own demons of guilt. In the background is Hiram Bolt, Benjamin's gentle farm hand, descended from slaves, who strives to hold them all together in a world that has seen far too much pain and suffering. Benjamins Field is a captivating tale about the journey of life, during which we each experience success and failure, joy and pain, and (if we are lucky) forgiveness and healing. Especially useful to young readers, but valuable to us all, are the story's lessons about this journey: our greatest achievements are for others, not ourselves; overcoming difficulties makes us stronger; disappointments can be blessings in disguise; help can come from unexpected sources; sometimes one door must close so another can open; it's futile to blame the universe or a higher being for pain that's inflicted by our fellow human beings. Benjamins Field: Rescue is listed on the Best Sellers Chart of the peer review site YouWriteOn.com.
