

Major is looking to the future. After six months in captivity, Major wants more than revenge on his captor. He needs to change the course of the Sawtooth Forest packs. All the she-wolves have been sold to the highest bidder, and the wolves are a generation away from extinction. Major has a true mate, but she belongs to someone else. Heâ€™™ll put everything on the line to make her his. Cass is trapped by her past. Being sold to a man who will never love her hurts, but itâ€™™s even more painful when her husband's sworn enemy should be her true mate. Cass never accepted her fate, and when Major walks back into her life, she knows things must change. Not just for herself, but to ensure her daughter has a future full of love instead of fear. Cass must decide whatâ€™™s more dangerousâ€™™ staying with her husband and guaranteeing the same fate for her daughter, or following her heart with Major.
