

Many decades have passed since the Palestinian national movement began its political and military struggle. In that time, poignant memorials at massacre sites, a palimpsest of posters of young heroes and martyrs, sorrowful reminiscences about lost loved ones, and wistful images of young men and women who fought as guerrillas, have all flourished in Palestinian refugee camps in Lebanon and in the Occupied Palestinian Territories. *Heroes and Martyrs of Palestine* tells the story of how dispossessed Palestinians have commemorated their past, and how through their dynamic everyday narrations, their nation has been made even without the institutional memory-making of a state. Bringing ethnography to political science, Khalili invites us to see Palestinian nationalism in its proper international context and traces its affinities with Third Worldist movements of its time, while tapping a rich and oft-ignored seam of Palestinian voices, histories, and memories.
