

In Ghostly Japan is Lafcadio Hearn's wonderfully-written long essay on various interesting subjects in Japan. He talks of supernatural and ghost stories, Buddhist proverbs, there's an interesting meditation on spirituality brought upon by the howling of his dog (I particularly liked this one because of its humor), the curious history and activities surrounding incense, on the science of divination, among other subjects. This is a must-read for any serious cultural understanding of Japan. Treat it as an introduction of sorts. What stands out is the writing of Hearn. It is warm and inviting. Though written more than a century ago, it is still highly readable. (Also I recommend his separate short essay On the Gothic as it explains the reason for his fascination with subjects of this sort.)
