

An Introductory text on C++ using the freely downloadable Borland C++ Batch Compiler. The easiest technical book you'll ever read. Open it up and see for yourself. Join Professor Smiley's C++ class as he teaches essential skills in programming, coding and more. Using a student-instructor conversational format, this book starts at the very beginning with crucial programming fundamentals. You'll quickly learn how to identify customer needs so you can create an application that achieves programming objectives---just like experienced programmers. By identifying clear client goals, you'll learn important programming basics---like how computers view input and execute output based on the information they are given---then use those skills to develop real-world applications. Participate in this one-of-a-kind classroom experience and see why Professor Smiley is renowned for making learning fun and easy.

Business and Society: Stakeholders, Ethics, Public Policy, Sparc Architecture, Assembly Language Programming, and C, Societies in Eclipse: Archaeology of the Eastern Woodlands Indians, A.D. 1400-1700, Endangered Elephants (Earths Endangered Animals (Paperback)), Adobe Premiere Pro Ca4, The Abbots Ghost (Annotated): A Christmas Story, Mama B - A Time to Dance (Book 2), The Holy Grail and Other Poems (Classic Reprint),
