

In the abandoned ruins of a Nueva York dystopia, teen Libertaria escapes a horrific world of DNA testing and loneliness, only to team up with her megalomaniac father in a quest to destroy the Factory that made her. Armed with a ragtag army of cyborg misfits, Libertaria joins forces with her drug addict dad Simeon Aguila, leader of the Underground metropolis, to destroy GenTechs immortal Collective. But who is the deformed soldier invading her thoughts? And can she destroy the Factory before her traitorous deformed nemesis Lucinde betrays them all? Unearthing dangerous family secrets that explain her mysterious past, Libertaria learns that sometimes to save the world you must first lose your soul! Libertaria: Genesis is dystopian, and good at it, and that needs further examination. - J.
