

~Natalie~ My life hasn't been going well of late. Recently contacted by a girl who claims to be my sister, I'm now haunted by a family I never knew about, and swore to never associate with. After all, I was given away at birth; why should I care about anyone who would abandon me? I've worked for years as a patrol cop, beating the streets of my hometown, of San Francisco until I learn my husband is cheating on me. The need to escape to a family who doesn't really know me becomes the only viable solution; and one I never dreamed I'd pursue. But I must get out of this city, and now! I can't stand to breathe the same air as Sam Ford. Sam Ford. The sole ruler of my heart for decades. The day we got married, I thought I was starting the life of our dreams forever, even if we struggled to start a family, I believed we loved each other enough to survive anything! but apparently, not that. Sam managed to shatter my heart into a million pieces, and I'm not sure it can ever be glued back together again, no matter who attempts to.
