

This book contains 75 full color pages and 2 practice tests. It provides a tool for parents to teach their children and to boost their interest in learning. The NNAT measures nonverbal reasoning and problem solving skills. The 4 categories of questions are pattern completion, reasoning by analogy, serial reasoning and spatial visualization. The NNAT is designed to measure nonverbal reasoning skills without the use of language. Children will be tested on their problem solving abilities and to demonstrate an understanding of relationships. In addition, there are additional bonus OLSAT practice questions at the end of this workbook to introduce children to the OLSAT, which is often administered together with the NNAT. We wish you greatest luck in your child's academic path.
