She’s destined to become a Fairy Godmother, because the skills are written into her DNA. Till embarks on her fairy education at Dreams Come True University with much trepidation, guided on her journey by a unique mentor: a Celtic hybrid with a secret by the name of Gus. When Till falls head over heels for Gus, will she break the most serious law in the Fairy Code, or will the truth of what really happened to Gus’s parents keep them from repeating history?
