

Excerpt from Our Place Among Infinities: A Series of Essays, Contrasting Our Little Abode in Space and Time This work takes its name from the essays occupying the first seventy pages of the book; but the later essays, as shewing the nature of those parts of the universe which lie nearest to us, are properly included under the same title. Even those on Astrology and the Jewish Sabbath belong to the discussion of our place among infinities; for it was their ignorance of the earths place among infinities, which led the ancients to regard the heavenly bodies as ruling, favourably or adversely, the fates of men arid nations, and to dedicate the days in sets of seven to the seven planets of their astrological system. It will be seen, that my views respecting the interesting question of life in other worlds have changed considerably since I wrote the work bearing that title. I still consider that work a sound exposition of the theory of the plurality of worlds, though I consider that the weight of evidence favours my theory of the (relative) paucity of worlds. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
