

Ex-Navy SEAL Samson Caine has lost everything he's ever fought for and nothing can bring back his wife. But when he's offered a new mission protecting brilliant, sharp-tongued biochemist Angela McAllister from those who want to exploit the deadly knowledge she carries, he's got no choice but to accept. He couldn't save his first love, but maybe he can finally find redemption keeping the fiery scientist safe. Samson knows he has a difficult road ahead of him, but he doesn't count on the asset he's charged with protecting being so ... intriguing. Falling in love isn't part of the plan. Especially when a rogue government official with nothing to lose plans to harness a lethal bioweapon and take revenge on the terrorists hiding out in Samson's South African village with Angela's help and holds her brother as leverage. Now, it's up to Samson to protect a town full of innocents, one of whom is the son he hopes to adopt, while keeping the woman he loves from harm. He'll have to fight powerful enemies, and his own demons, to save his world from catastrophe.
