

World-famous science and science-fiction author Arthur C. Clarke and photographer Mike Wilson spent two adventurous years exploring the Great Barrier Reef, the mightiest coral formation in the world. Presented here are the adventures and mishaps, successes and failures of that underwater expedition, as recorded by Clarke himself. Illustrated with rare underwater photographs, here is a unique look into a region of mystery, of boundless beauty and danger -- one of the most intriguing frontiers on our planet.

Wheres My Umbrella? A Crash Course in Crisis Management, Friction, Velocette - Technical Excellence Exemplified, Journals: Early Fifties, Early Sixties, The Second Super (The First Superhero Book 1),
