

Originally published in 1887, Edward Carpenter's England's Ideal and other Papers on Social Subjects is a collection of his essays in the field of Social Science with a focus on English society at the time of writing. His writing was so influential that there was a near constant demand in the late nineteenth and early twentieth centuries for this work to be reprinted with this particular edition being published in 1919. Papers included in this volume discuss issues such as labour, trade and property and all provide insight into the English class structure as well as illuminating Carpenter's socialist values. This title will be of interest to students of sociology.
