

Following the death of her parents, Eren Donovan is forced to move to Spruce Knoll to live with an aunt she's never met. Eren soon learns that the entire population are channelers—people who immigrated there when they were driven out of their homelands due to their ability to manipulate energy. Channelers are tied to the fate of the world, and as it slowly dies, they are going extinct—and they alone have the power to save the earth. When Erin meets Aiden his charm convinces her that being a channeler may not be as horrible as she had imagined. As their relationship develops, so too does a mystery in Spruce Knoll. The town holds many secrets—and many dangers. It soon becomes apparent that the untimely death of Eren's parents was no accident and that her life is in danger too. Only time will tell if Eren can embrace her unwanted power and protect the only family she has left.
