

As Alexandra tries to conform to her new life, she soon discovers that betrayal lies inside the castle walls. When noblewomen plot against her, Alexandra ends up on the receiving end of Branford's rage. Earning the trust of her wary husband will be no easy task for the young handmaid. Branford may know his way around their bedchamber, but he's finding himself ill-prepared to handle the duties of both prince and husband. His missteps bring down the wrath of the queen, and he will have to do everything in his power to atone for his transgressions. Branford must find a way to open his heart to his new wife if either of them has a chance of overcoming the treachery ahead.
