

This book recently updated tells the stories of some very interesting cases of murder and other crimes which were investigated surprisingly thoroughly for the times and which finally resulted in the accused being hanged at the recently closed Shrewsbury prison in the United Kingdom. I have used much original phraseology and quotations especially from the trials. To give not only accuracy but a feeling of reality I have transcribed details of the cases in court exactly as recorded in old records. The long paragraphs, lack of punctuation, speech and phrases from those far off times are not grammatical errors or spelling mistakes.
