

Who killed darlin' Corey? In the sixth novel in the Conan Flagg series, the Oregon detective is investigating the mysterious, untimely death of his friend Corey Benbow. It seemed to Flagg that the police were asking too few questions about the fatal automobile accident that claimed the young woman's life—especially since it was common knowledge in the town of Holiday Beach that more than one person stood to gain from her death. It wasn't long before Flagg began unraveling motive and opportunity to disprove the verdict of accidental death in the case—and, in a chilling re-creation of the crime, to demand equal justice for the deadly conspiracy of silence that murdered Corey Benbow.
