

Winner: 2011 Moms Choice Award, Gold: YA Comic Books & Graphic Novels
Employing a graphic novel format, this dynamic story explains complex medical information about breast cancer in a straightforward yet entertaining way. The Medikidz are larger-than-life superheroes who live in Mediland, a living, moving virtual world within the human body. Each character is an expert on one component of human anatomy and the role it plays in fighting the disease. Using their extensive combined knowledge, the Medikidz conduct a journey through Mediland, exploring complex medical issues in a language and visual style that is attractive and accessible to tweens and teens. Appropriate humor and adventure are blended with accurate facts, so young readers can understand Bridget's Mom's illness and become aware of the support and tender loving care she needs.
