

This collection of essays presents a systematic analysis of some of the foremost issues in the philosophy of religion. The focus is on the epistemology of religion, the most significant area of recent interest in the field. After developing a religious epistemology in the 1st half of the book, that epistemology is not only further expanded, but explicitly applied to two salient issues in the contemporary discussion - the debate over theological realism versus non-realism, and the problem of religious pluralism. Other works by Joseph Runzo include *Reason, Relativism and God, Is God Real?*, *Ethics, Religion and the Good Society: New Directions in a Pluralistic World* and *Religious Experience and Religious Belief: Essays in the Epistemology of Religion*.
